

UNIFIED OPERATIONAL VISIBILITY

NexHospitality

Every property, every task, in one view.

NexHospitality gives hospitality teams real-time visibility across properties, service requests, incidents and staff tasks — with the tools to act, maintain and stay compliant.

Centralized hotel monitoring

● Multi-property

● Asset register

● Maintenance

● Compliance

● AI agent

● Role-based

WHAT YOU GET

Visibility that keeps operations moving.

NexHospitality replaces scattered systems with one live picture — so teams see issues sooner and follow through faster.

✓ Real-time

✓ Accountable

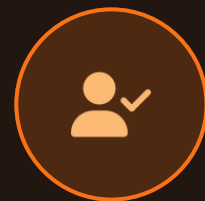

✓ Multi-property

✓ Auditable

One control room

Every property, service request and incident in a single live view.

Clear ownership

Tasks, tickets and escalations tied to named, accountable owners.

Faster follow-through

Incidents and requests tracked from the moment they're raised to close.

Confident reporting

Clean operational reporting management teams can rely on.

— WHAT WE OFFER

One platform for hospitality operations.

Centralized visibility

Properties, staff tasks, service requests and KPIs consolidated into one place.

Operations & incident tracking

Operational updates, incidents and workflow status across every property.

Maintenance & requests

Raise, schedule, track and close maintenance and asset requests in one flow.

Governance & compliance

Role-based access, audit trails and compliance status across the estate.

— MONITOR IN REAL TIME

See everything, across every property.

One console spans hotels, applications and databases — with tasks, incidents and roles all in view.

Centralized property monitoring

Every hotel, application and database in one operations console.

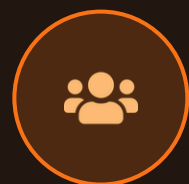

Application & database sync

Live sync status for Opera, SunSystems, Symphony and more.

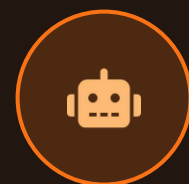

Operations & incident visibility

Operational updates and incidents tracked as they happen.

Staff & task tracking

Assignments, progress and escalation followed in real time.

Built-in AI agent

Ask questions in plain language and get answers across the operation.

Role-based pages

Operator, international-operator and management views, each by role.

Act, maintain and stay compliant.

From asset register to end-of-life and compliance — the full maintenance and request lifecycle in one place.

Asset register

Every asset across properties catalogued, owned and current.

EOL asset tracking

Flag end-of-life assets before they become an operational risk.

Assets health & maintenance

Monitor asset condition and upkeep from a single view.

Maintenance ticketing

Raise, schedule, approve, track and close maintenance tickets.

Requests & approvals

Asset requests routed and approved with a full audit trail.

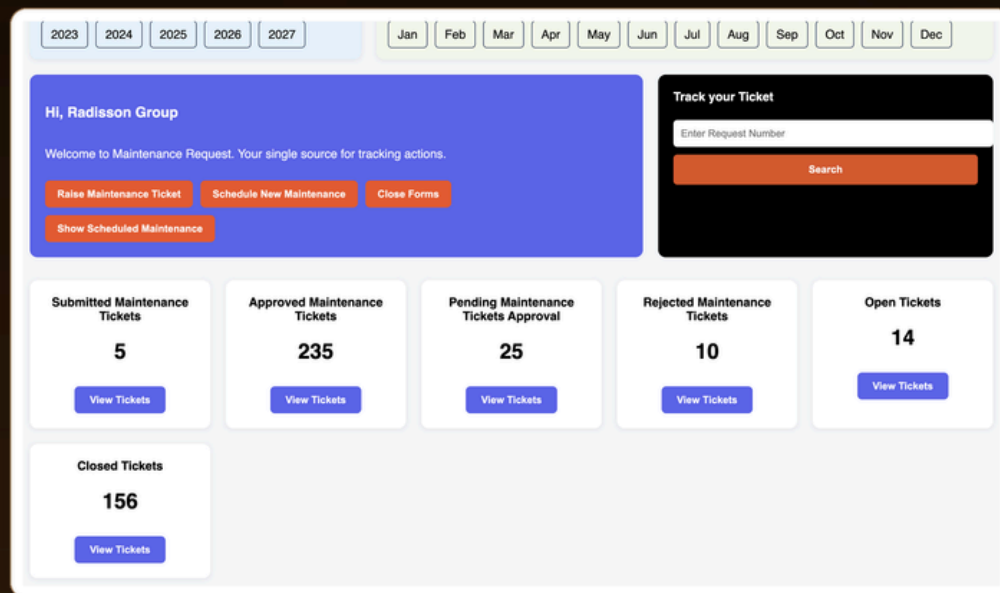

Compliance status

Property health, service performance and compliance at a glance.

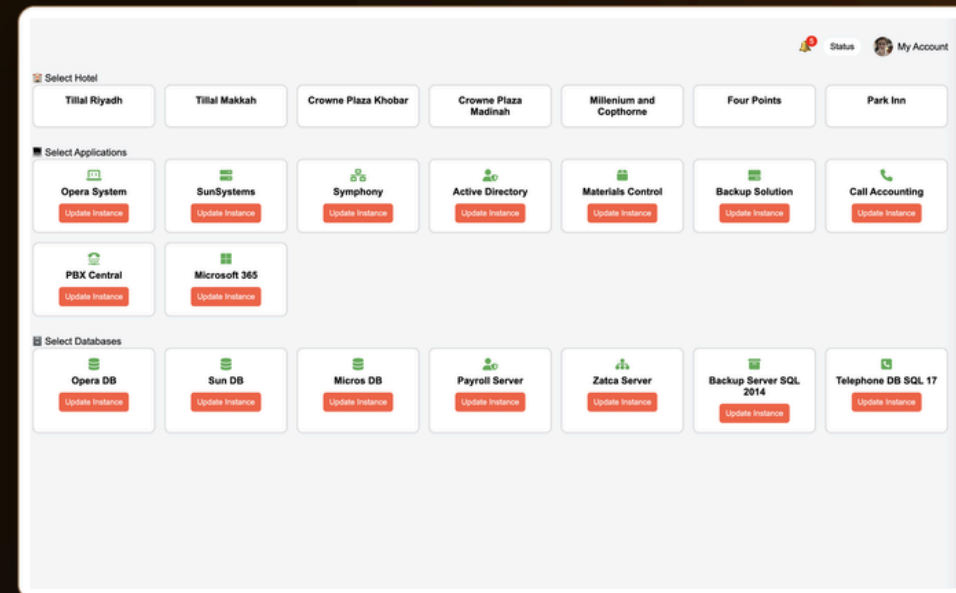

Built for the way properties run.

Consistent, role-aware screens for monitoring, maintenance and asset requests across the whole estate.

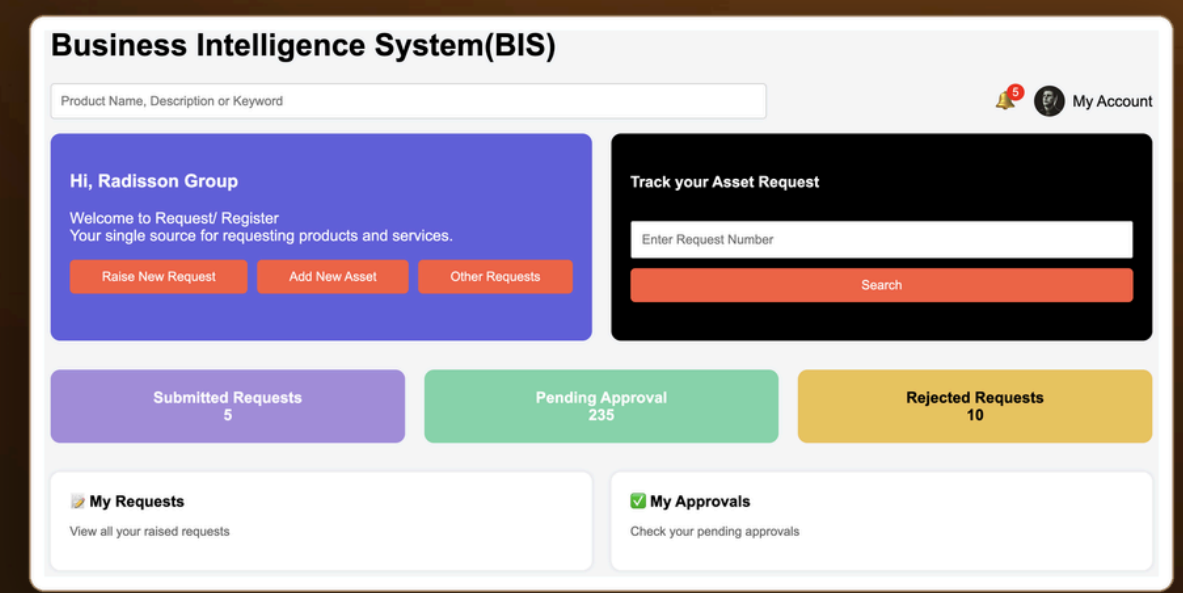

Applications & databases per property

Every system and DB, hotel by hotel.

Maintenance tickets & scheduling

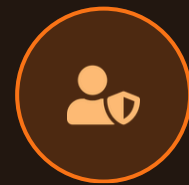

Raise, schedule and track from one board.

Asset requests & approvals

Requests routed with status and approvals.

Ownership, access and evidence in mind.

Role-based access

Property teams, operations, management and service owners are each scoped to what they need.

Incident & escalation logs

Incident logs, task ownership and escalation paths tracked end to end.

Service & maintenance history

Service-request status and maintenance history retained and searchable.

Management dashboards

Monitor property health, service performance and compliance in one place.
