— THE CHALLENGE

From manual invoice risk to controlled compliance.

THE PROBLEM

Manual invoice processing creates compliance, traceability and reporting risk.

- ⚠ Incomplete VAT records and manual checks
- ⚠ Non-compliant reporting to authorities
- ⚠ Missing approval history and audit trail
- ⚠ Weak links between billing and ERP workflows

THE NEXINVOICING SOLUTION

Structured validation, approvals and compliance evidence.

- ✓ ERP integration and invoice-generation readiness
- ✓ VAT data checks and exception handling
- ✓ Approval tracking with role-based access
- ✓ Secure, audit-ready trails for finance & compliance

— OUTCOMES

Outcomes built for real operations.

Structured validation and controlled approvals cut error and rework — while every invoice stays traceable end to end.

✔ **Controlled**

✔ **Traceable**

✔ **Compliant**

✔ **Auditable**

Fewer errors

Less manual intervention and rework in invoice processing.

Full audit trail

Traceable, audit-ready invoice history end to end.

Faster approvals

Quicker sign-off and faster finance reporting cycles.

Enterprise-ready

A structured, scalable compliance workflow.

— WHAT WE OFFER

Built for practical finance operations.

ERP invoice integration

Connect billing flows so invoice data moves cleanly between ERP and compliance.

VAT & invoice validation

Validate VAT numbers, tax categories and invoice fields before anything is sent.

Approval tracking & audit logs

Track review and approval status with a complete, tamper-evident audit log.

Compliance-ready workflows

ZATCA, FTA and Peppol-ready workflows built into everyday finance operations.

— HOW IT WORKS

A controlled path for every invoice.

From ERP billing to authority submission and audit — each step validated, approved and evidenced.
